## PIAGGIO LIBERTY 50

The new Piaggio design technology icon is born, interpreting the unique personality and distinctive style of Liberty with a contemporary and fresh look. After 18 years of successes and over 800,000 vehicles sold, Liberty takes on a new shape in the new Piaggio Liberty, the high-performing scooter that summarizes the contemporary easy chic spirit. The design combines with the highest safety and technology standards, the new **i-get** engine family, in a high-wheeled scooter symbolizing freedom, independence and attention to details.

The vehicle structure and size and the high wheels give off a stable and safe sensation even to first-time scooter riders. The rear-mounted passenger footrests combine with hi-tech and functional elements, such as the spacious under-seat compartment, openable with electric control,

and the analogue-digital instruments with LCD display, enhancing comfort during the ride.
